Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

01/06/20 - 01/12/20

Monday-Tuesday

- Moderate to strong north to northeast winds (Santa Anas) are expected today through Tuesday morning across parts of southern CA.
 - Offshore/northeast winds across southern CA mountains are gusting as high as 65 mph this morning. Winds on Tuesday in these areas will be lower – with max wind gusts Tuesday morning around 45 mph.

Wednesday-Sunday

- Additional mountain snow and valley rain can be expected mid to late week across northern CA as an extended period of active weather establishes across the West Coast
- Precipitation will largely occur across northern CA with each weather system, but may also impact southern CA at times during the late week and into next weekend. No major impacts are expected.
